

## UNIT 1

# LEARNING OBJECTIVES

- Describe the subatomic particles that make up an atom.
- Use the periodic table to determine the numbers of protons and electrons in a neutral (uncharged) atom.
- Describe the subatomic particles that make up an atom.
- Use the periodic table to determine the numbers of protons and electrons in a neutral (uncharged) atom.

## UNIT 1

# CHEM CONNECTION

- Describe the subatomic particles that make up an atom.
- Use the periodic table to determine the numbers of protons and electrons in a neutral (uncharged) atom.

## UNIT 1

# DID YOU KNOW?

There is about 0.4 pound or 200 grams of salt (NaCl) in the average adult human body.
